About Duranite®

Duranite® is Gescova's solution for durable table tops. Duranite® is made from high quality fibre cement board which is coated with a multi-layer polymer based paint. Duranite® can withstand all weather conditions and making it the ideal replacement for natural stone.

Duranite® is scratch resistant. The quality of the surface can be attributed to a unique hardening process which each table top undergoes in the final stages of coating. This finishing process also contributes to the excellent weather resistance and low maintenance of duranite table tops.

AGORA

100% dyed acrylic

Every Agora® solution dyed acrylic fabric collection offers an exceptional combination of strength and functionality. The fabrics are designed with the intention to be strong, durable and resistant. The water resistant finishing further improves the performance characteristics so that the fabrics are stain repellent, easy to clean and require a minimal but constant maintenance

Characteristics

Teflon with stain and mildew resistant treatment

100% PU lamination

Water repellent treated

Good oil repelling properties

Resistant to seawater

Bactericidal

UV resistant, with a light resistance index of 7 out of 8.

UV protection factor UPH 50+

prevents heat and humidity condensation

Maintenance tips

Do not expose laminated side to UV rays or direct sunlight or any atmospheric agents.

Washing in washing machine, delicate program, 30°C

Do not tumble dry

Clean stains with cloth or sponge moistened with a neutral soap solution, always on the fabric side.

In case of stubborn stains a solution of < 5% bleach may be used instead.

Do not dry clean nor use perchloroethylene.

Iron on the fabric side only. Do not iron on the laminated side.

Do not use pressure washers (Karcher type) on fabric. It may damage the lamination and/or peel it off.
